 Motion by Eberling, seconded by Nolte, approves an Application to Outlet Private Field Drainage Tile into County Secondary Road Right-of-Way at 1354 190th Street for Galen Eisentrager. All ayes, motion carried.
 Motion by Eberling, seconded by Nolte, opens at 10:00 a.m. the Completion Hearing for Drainage District #48. All ayes, motion carried.
 Present was: Art Cady-Drainage Attorney, Lee Gallentine-Drainage Engineer, Colette Bruns-Drainage Clerk, Jay Waddingham-County Engineer, Richard Blackford, Matt

Abbas, Jeremy Rognes-Rognes Brothers Excavating, Inc., Cal Dickson, Tim Richmond
 Lee Gallentine presented the DD #48 Completion Report and explained the contents. Complete Drainage Minutes can be viewed in the Auditor's Office.
 Three claims for damages or objections were submitted from:
 1. Claim for damages or reimbursement from Matt Abbas for removal and partial installation of a 700' pasture fence in the amount of \$2,765.31. It was agreed this fencing would not be a part of the original contract for repairs and that Abbas would do the work and request reimbursement at this hearing.
 2. Objection from Dean W. & Peggy G. Lemke Joint Revocable Trust, Dean W. Lemke and Peggy G. Lemke, Trustees; Harlan Lawrence Lemke Revocable Living Trust, Harlan Lawrence Lemke, Co-Trustee and Francine Emily Lemke, Co-Trustee; Francine Emily Lemke Revocable Living Trust, Francine Emily Lemke, Co-Trustee and Harlan Lawrence Lemke, Co-Trustee; Sandra Harris, Dale and Irene Hackbarth Farms, Inc., (Lemkes/Hackbarths) Said Objectors:
 a. Own land in DD #48;
 b. There has been a ditch field crossing on Objector's land;
 c. DD #48 recently had an improvement that has significantly change the hydrology of DD #48 with very high flows during and immediately after a significant rainfall resulting in Objector's ditch crossing washed out and becoming unstable and unsafe for farm equipment usage with a narrowed top width and eroded nearly vertical side walls subject to collapsing;
 d. Objectors understanding that Rognes Brothers Excavating, Inc. was to replace the ditch field crossing. However, for unknown reasons, that did not occur;
 e. Objectors are aware that the Rognes Brothers Excavating, Inc., estimated that each ditch field crossing would cost \$32,000. That

subject to collapsing;
 d. Objector's understand that Rognes Brothers Excavating, Inc. was to replace the Objectors' ditch field crossing;
 e. However, there has been nothing done to replace Objectors' ditch field crossing.
 f. Objectors are aware that Rognes Brothers Excavating, Inc. estimated that each ditch field crossing would cost \$32,000. That figure does not include \$6,000 in damages for compaction and possible crop losses during installation of the ditch field crossings, and increased costs from not being able to use the ditch field crossing since 2018.
 Comments were received from Rognes Brothers Excavating, Inc., Jeremy Rognes, stated no crossings were put in anywhere during this repair per the contract. South of bulkhead was only cleanout. Rognes stated they signed off early in the project they did not want to put in the crossings.
 Comments from Abbas and one other landowner shared that there should be some penalty but not sure what amount. There was a long stretch of good weather and they were not working; a contract is a contract. Abbas felt the crossings are the landowner's responsibility.
 Gallentine commented there were problems finishing the punch list and the Drainage Trustees need to be fair to the landowners and the contractor. It's hard to come up with a fair figure that's equitable to both. Gallentine asked if the sluffs caused Rognes to 300 days over the contract deadline? He answered, no. The main ditch work should have been completed in November the original deadline and the May deadline was an extension for additional drainage pipe. The additional pipe (tile outlets and surface drain) and ditch crossings were completed the week of June 18, 2018 with punch list items remaining which was approximately 50 days after the contract completion date of May 1, 2018 for this portion of the contract. The punch list

figure does not include \$6,000. In damages for compaction and possible crop losses during installation of the ditch field crossings, and increased costs from not being able to use the ditch field crossing since 2018.
 Objectors object to approval of the Completion Report unless the Objectors are paid for their damages for their ditch field crossing not being replaced.
